

# INDUSTRIAL PROCESS

## Process & Environmental Monitoring Systems

- Dust and particulates monitoring systems
- Ambient and process gas analyzers
- Process and Continuous Emissions Monitoring Systems
- Bulk solids measurement of powder, dust and granules
- Analytical instrumentation for gases and liquids
- Flammability and calorific content analyzers
- Alarm management systems and signal conditioners
- Point and continuous level detection for liquids and solids
- Thermal mass gas flow meters and level switches
- Electromechanical linear actuators
- Purge systems for enclosures and motors
- Gas sampling/conditioning and custom analytical systems design and integration
- Gas sample probes and chillers
- Portable combustion and emissions analyzers
- Ambient air gas detectors
- Remote autonomous web based monitoring of process and infrastructure
