

WATER & WASTEWATER

Process & Environmental Monitoring Systems

- Water samplers and flow meters for compliance monitoring

- Point and continuous level detection for liquids and solids

- Flumes, weirs, gates and stop logs

- Portable weirs for round pipe flow monitoring

- Pump station flow/performance and sewer overflow monitoring equipment

- Water quality analyzers

- Thermal mass gas flow meters and switches

- Gas detectors

- Miniature air quality and odor monitoring systems

- Remote autonomous web based monitoring of process and infrastructure

- Continuous emissions and digester gas monitoring systems
